

Medicare: Final 2020 Cardiac & Pulmonary Rehabilitation Payment Rates

CMS has published final payment rates for cardiac and pulmonary rehabilitation (CR/PR) reimbursement rates. The following rates are for CR and PR services provided in a hospital outpatient program that is located on-campus or in an off-campus program at a location that precedes November 2015 (i.e., “excepted” or grandfathered). All other hospital outpatient CR/PR services that are off-campus are non-excepted and consequently reimbursed at an amount comparable to Physician Fee Schedule rates (a reduction in reimbursement of 40% or more).

2020 OPPTS (Hospital Outpatient) Reimbursement Rates-Final (11-1-19)

Rates reflect hospital outpatient services at **on-campus and **excepted off-campus** locations*
